WIN GIFT CARDS OF \$100, \$50, AND \$25!

The Middle Ages (~500-1500A.D/C.E.) were inspired by renewals of kingship & religious fervor in both Europe & the Mediterranean world. Science & technology resurged by the year 800 as Islamic, Christian, & Jewish thinkers and builders advanced weaponry, armor, fortifications, as well as art & architecture. Our event encourages everyone to compete, as well as to peruse a short museum exhibition of major scientific & technological developments of the Middle Ages.
